Spectral Medical Inc.

Notes to the Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2016 and 2015
(Unaudited)

(in thousands of Canadian dollars, except for share and per share data)

1. Nature of operations

Spectral Medical Inc. (Spectral or the Company) was incorporated on July 29, 1991 in Ontario, Canada as Spectral Diagnostics Inc. The address of the registered office is 135 The West Mall, Unit 2, Toronto, Ontario.

The Company is strategically focused on the development and commercialization of a treatment for septic shock utilizing its Endotoxin Activity Assay (EAA™) diagnostic and the Toraymyxin™ therapeutic. The Company also manufactures and sells certain proprietary reagents.

2. Basis of preparation

The condensed interim consolidated financial statements of Spectral for the three months ended March 31, 2016, have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS) as set out in the CPA Canada Handbook, applicable to the preparation of condensed interim consolidated financial statements, including IAS 34, "Interim Financial Reporting". The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2015, which have been prepared in accordance with IFRS. These condensed interim consolidated financial statements were approved by the Board of Directors for issue on May 11, 2016.

3. Significant accounting policies

The significant accounting policies used in the preparation of these condensed interim consolidated financial statements are consistent with those of the previous financial year.

4. Critical accounting estimates and judgments

The preparation of condensed interim consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying Spectral's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions are significant to the financials are the same as those that were applied to the financial statements for the year ended December 31, 2015.

5. Accounting standards adopted in the current period

The following amendment has been adopted by the Company for the financial year beginning on January 1, 2016:

Amendment to IAS 1, *Presentation of Financial Statements*: This standard was amended to clarify guidance on materiality and aggregation, the presentation of subtotals, the structure of

financial statements, and the disclosure of accounting policies. The amendment is required for years beginning on or after January 1, 2016. The adoption of the amendment to IAS 1 will not have any material impact on the Company's financial statements.

6. Accounting standards issued but not yet applied

There are no new IFRSs or IFRCs that are effective for the first time for this interim period that would be expected to materially affect the Company.

7. Risk management

i. Financial risk management

In the normal course of business, the Company is exposed to a number of financial risks that can affect its operating performance. These risks are: credit risk, liquidity risk and market risk. The Company's overall risk management program and prudent business practices seek to minimize any potential adverse effects on the Company's financial performance.

The condensed interim consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements. They should be read in conjunction with the annual financial statements as at December 31, 2015. There have been no changes in the risk management or in any risk management policies since year end.

ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities as they become due. The Company is exposed to liquidity risk, as it continues to have net cash outflows to support its operations. The Company's objective for liquidity risk management is to maintain sufficient liquid financial resources to meet commitments and obligations in the most cost effective manner possible.

The Company achieves this by maintaining sufficient cash and managing working capital. The Company monitors its financial resources on a weekly basis and updates its expected use of cash resources on the latest available data. All of the Company's financial liabilities are classified as current liabilities. Trade and other payables were \$2,828 as at March 31, 2016 with all of them having expected settlement dates within one year. There are uncertainties related to the timing and use of the Company's cash resources.

8. Contingencies and commitments

- i. The Company has committed to expenditures for its EUPHRATES trial as follows:

	2016	2017
	\$	\$
Program management	2,663	810
Program oversight	234	36
Clinical site costs	724	32
Diagnostic supply and training	68	-
Employee benefits	416	264
Consultants	91	-
	4,196	1,142

Future commitments for the trial are based on enrolment of 446 evaluable patients in accordance with the approved clinical protocol at up to 60 clinical sites in the U.S. and Canada. The Company is only committed to the costs to the extent that evaluable patients are enrolled.

- ii. Directors and officers are indemnified by the Company for various items including, but not limited to, costs to settle lawsuits or actions due to their association with the Company, subject to certain restrictions. The Company has purchased directors' and officers' liability insurance to mitigate the costs of any potential future lawsuits or actions. The term of the indemnification covers the period during which the indemnified party served as a director or officer of the Company.

In the normal course of business, the Company has entered into agreements that include indemnities in favour of third parties, such as purchase and sale agreements, confidentiality agreements, engagement letters with advisors and consultants, leasing contracts and license agreements. These indemnification arrangements may sometimes require such third parties to compensate counterparties for losses as a result of breaches in representations, covenants and warranties provided by the Company or as a result of litigation or other third party claims or statutory sanctions that may be suffered by the counterparties as a consequence of the relevant transaction. In some instances, the terms of these indemnities are not explicitly defined. No accruals have been required to be made as at March 31, 2016 with respect to these agreements.

9. Share capital and other equity reserves

- i. The Company is authorized to issue an unlimited number of common shares ("Shares").
- ii. On December 15, 2014 the Company announced that the Toronto Stock Exchange (the "TSX") approved its notice of intention to make a normal course issuer bid ("NCIB") for its outstanding Shares. Pursuant to the notice, the Company was able to purchase up to 3,594,745 of its Shares, representing approximately 2% of its issued and outstanding Shares,

during the twelve month period commencing December 17, 2014 and ending December 16, 2015.

During the three month period ended March 31, 2015, the Company repurchased 90,000 Shares under this NCIB for \$55. All Shares purchased were cancelled.

iii. Details of share options are as follows:

Under the Company's 2008 Amended Stock Option Plan, the total number of Shares that may be optioned to any director, officer, employee or consultant shall not exceed 5% of the total issued and outstanding shares at the date of the grant of the option. The aggregate number of shares issuable under the Plan shall not exceed 10% of the total number of Shares issued and outstanding.

During the year, the Company granted the following share options to directors, officers, employees and consultants at the discretion of the Board of Directors.

2016			2015		
Date	Number of share options	Exercise price	Date	Number of share options	Exercise price
February 1, 2016	1,420,000	\$0.73	January 22, 2015	1,250,000	\$0.38
March 29, 2016	180,000	\$0.76	March 24, 2015	100,000	\$0.67

The exercise prices of the share options are equal to the closing market price of the Company's Shares on the TSX on the immediately preceding day of the grant of the option. Share options issued to the Company's directors vest 100% at the time of the grant. Share options issued to the Company's officers, employees, and consultants, generally vest at 25% of the grant amount at the time of the grant. The balance of these share options vest equally in each successive quarter and will be fully vested by the end of the third year following the grant date. Share options issued on February 1, 2016 will be fully vested by February 1, 2019. The share options issued March 29, 2016 were fully vested on the grant date. The contractual life of each share option is five years, except for the share options granted on March 29, 2016, which is two years. There is no cash settlement of the share options.

The volatility measured at the standard deviation of continuously compounded share returns is based on statistical analysis of weekly share prices over the last five and two years respectively.

Share options granted were valued using the Black-Scholes option pricing model, with the following assumptions:
